

# PACK-A-PULL™

## Safety First!

- \*Not for climbing.
- \*Not for direct overhead lifting.
- \*Do not walk under suspended objects.
- \*Do not lift live animals, including humans.
- \* Only use cord rated at 5x or greater tensile strength than the weight of items being lifted.
- \*Load on Main line is the total weight of both items!  
Two 100 lb items requires a minimum of 1000 lb tensile strength cord for main line!
- \*Inspect rope and hardware before each use, replace if damaged or worn.
- \*Assure limb, or other structure, can handle the load, and always use caution.
- \*Keep hands and other appendages clear of loops and tangles in cord.

By using Pack-A-Pull you accept all risks and liabilities. Pack-A-Pull and all affiliations of Pack-A-Pull are not liable for loss, damage or injury.

Do not use if you do not accept these terms!
